The Bible

Is it true?

Many doubt the authenticity of the Bible and its divine origin, yet there is countless undisputable evidence of its inspired origin.

Did you know that the Bible, the Book of books, is the most widely distributed book in the world? It is a library that is composed of 66 books in which 40 authors participated in its writing over a time span of 1600 years. Having said this, there are no contradictions found because it was inspired by God.

Did you know that archeological excavations confirm the historical veracity of the Bible? 2500 places mentioned in the Bible have been discovered by archeologists. Cities like Babylon, Lachish, Hazer, Nineveh, and others along with palaces and artifacts have been uncovered, like

Did you know that the book of Revelation presents prophetic chains describing the ecclesiastical and political history of the last 2000 years? With mathematical exactness, it presents surprising events. You can know the four horsemen of the book of Revelation, the anti-christ 666, the United States in the prophecy, how to identify the church of God and modern Babylon. Did you know there are 10 ways you can know Jesus Christ? You can know Him through history, prophecies, symbols and so on.

Did you know that the Bible has more than 2300 prophecies about people, empires, nations and events that give us a view of the past, the present and the future? Furthermore, information that has been discovered at a later date have been mentioned on subjects such as, science about the Earth, space, health (contrary to beliefs in the times they were written). Also a prophetic view into future inventions such as air-crafts and automobiles are mentioned. References to the time in which we are living is interesting. Did you know that because of three words mentioned in a Bible prophecy, Hitler lost the war? These words were written 2600 years ago during Nebuchadnezzar's reign in the time of

like the Ivory Palace of King Ahab. God has proven the authenticity of His word as seen in discoveries such as the Dead Sea Scroll, the Chester Beatty Codex, and others. Complete libraries have also been found.
